JUDGING TURNED ITEMS

Due to an approach from a member regarding the judging of items in the show and tell on Maxi Days it was decided at the July workshop meeting that if a theme for turned items has been advertised for a month that judging should only be done on those items which conform to the theme.

Eg. *If the theme is bowls then only bowls would be judged.*

However members may put any items on display that they may choose and will speak on those items as is the usual procedure.

The host that sets the theme should ensure that the demonstrators the previous month demonstrate on the theme.

To clarify.

The host for September has set miniatures so:-

at least one demonstrator should demonstrate miniatures at the August Maxi Day.

“Jointed” items will be judged and displayed as previously.

*Do you know of a member who is ill or has a family member who is ill.

Around the traps by Alan Pentecost

The dust extractor

Amazing what you find when the dust extraction system doesn't seem to be working correctly!

At a recent Mini Day, we were surprised how much dust was covering the table saw operator when ripping some lovely New Guinea Rosewood.

After a short investigation, we found the outlet at the bottom of the saw was blocked by some debris.

After removing a garbage bin full of sawdust plus a few slivers of timber we were back in action with the extractor system working just as we expected.

Coming event

The Illawarra Festival of Wood will be held at Bulli Showground on Friday 12th to Sunday 14th October 2018.

This will be the 2nd year that this event will be held, and judging by the reports from last years attendees, it should be a great event for woodies and their families.

There are plenty of photos from last years event and further details at

August Show & Tell

One of the (many) difficulties in woodturning is finding a design or shape that is pleasing to the eye.

There are heaps of items such as vases, plates, dishes, bowls and plates in everyday use that someone has designed and made which just 'look' right.

The theme for August is 'Carbon Copy'. About 50% of a piece of wood is made up of carbon.

There is virtually no carbon in glass, pottery, porcelain, non ferrous metals and a small amount in steel.

To save some brain power in coming up with a shape or design, how about turning an exact (carbon) copy of an item in your choice of timber.

Grab an interesting item from around the house and get straight onto the lathe, no designing required!

Bring the sample item and your masterpiece to the August Show & Tell table and let's see what inspired you.

Another coming event

Woodturning demonstration by Simon Begg

Arrangements have been made to have a young woodturner from the northern part of Sydney do a one day demonstration at The Cubby House on Wednesday 26th September from 9.00am to 4.00pm

Simon found his passion for timber at a young age.

Throughout school he excelled in Industrial Technology, finishing high school with a rank of 2nd in the State.

During his cabinetmaking apprenticeship,

Simon spent most of his spare time in his shed making pieces for customers and competitions, regularly winning awards at agricultural shows.

After a trip to Turnfest 2016, Simon realised that his hobby could be a career that is worth pursuing, so he began to chase his dream job.

2 years later he got an opportunity to teach at the Turnfest clinic and in 2019 he will be one of the headline demonstrators.

Galleries which have pieces by Simon on display include Bungendore Wood Works Gallery and Sturt Craft Centre at Mittagong.

Have a look at Simon's website - <https://www.simonbeggswoodturning.com/>

Cost for the day is only \$10.00, payable in advance.

Please see Alan Pentecost to get your name on the list or contact him on 9525 8347. Numbers are limited, so get in early!

Brain teaser.
It is the beginning of eternity , the end of time and space. It is the start of every end, and the end of every place.
What is it?

Brain Teaser for June

Two people play a game of NIM. There are 100 matches on a table, and the players take turns picking any number of matches from 1 to 5 (no more) matches at a time. The person who takes the last match wins the game.

What is the winning strategy?
Solution to brain teaser
The first person has a winning strategy.
First, he takes 4 sticks. Then every time the second player takes X sticks, the first player takes 6 - X sticks.

It is my intention to cease being editor of the Cubby House News at the end of August I have been editor for several years and as my circumstances are changing need a break.

I consider it important to keep the news letter as a means of communication and hope that someone will take up the position. Naturally I will provide help to whoever takes the job during the transition period
 Ken McEwen Editor.

Note:-

The AGM is to be held in August time to think how you can make a contribution by nominating for a position. Give those who have been in the various positions a break.
