Minutes:

Propose that the minutes of our previous meeting held on 14th. October 2019 as published in the October Cubby House News be taken as read:

Moved By: Trevor Simpson Seconded By: Barry Belford

Business arising from minutes:

Correspondence In:

Correspondence Out:

Invitations to our toy donation day on the 21st November were sent to our Mayor Carmelo Pesce who has accepted, State Member Eleni Petinos who has declined due to Parliament sitting on that day and Federal Member Craig Kelly who has not responded.

A letter of thanks was sent to Malcolm Stewart for his very kind donation of the Big Blue Thomas the Tank Engine to be the centre piece of our upcoming raffle.

A request has been made to Bunnings Kirrawee to allow us to continue to hold our monthly B.B.Q. on the second Friday of each month.

Treasurers Report: As the Treasurer was absent there was no report this month.

REPORTS:

Val Lipping reports the lunch for November will be our normal fare.

Keith Jones advised the committee that December lunch will be similar to last year with a Buffet style feast prepared. Entry fee for December will be \$10.00.

Keith Moses advised that the Leader has been informed of our Toy giveaway date, but the will not be in attendance due to lack of staff, however we can take pictures and send them in with a back story.

Wearing his Welfare cap, Keith advised that Fred Warr was back in hospital, we were pleasantly surprised at Bunnings BBQ to have Fred drop in to have a sausage sizzle. He had signed himself out of hospital and arranged for Colleen to drop him down for a while before taking him back to hospital. Guess he wanted a decent meal.

Alan Pentecost and crew are working on one of our belt sanders to try and replace bearings etc.

GENERAL BUSINESS:

President Keith advised that we will be selling raffle tickets for our toy raffle at Bunnings Kirrawee on the 8th and 15th of December. Those Members who took books of tickets to sell, please ensure that they are returned no later than December Maxi Day as we will be drawing the winner on that day.

Ken McEwen accepted an invitation to give a small talk on his recent visit to Peru during our December meeting.

Frank Williams briefed the members on the research he has done on CNC machines and Laser Cutting machines Suitable for the club to purchase. Barry Belford moved, seconded by Alan Pentecost that the Committee approve the purchase of those machines with the understanding that the purchase will take place once Frank (and the Sub Committee he has requested be formed to assist) make their final decision. The motion was unanimously past. Barry Belford asked that our Members Renewal forms be updated to include additional contact details to ensure that we can check up on their welfare if we can not make direct contact with them.

There is no further business – I declare the meeting closed at:10.40 am

Who is afraid of Alzheimer's - Not me hehe!!

Hi, folks, I had no problem finding all the letters.

I hope you all do this test, then I will know that my friends have no problems with the memory.

Who is afraid of Alzheimer's –

Not me hehe!!

Good news for the weekend!

This is for those of us who are having trouble remembering things!

Who's afraid of Alzheimer's?

In the following analysis the French Professor Bruno Dubois, Director of the Institute of Memory and Alzheimer's Disease (IMMA) at La Pite|-salpetriere

Paris Hospitals / addresses the subject in a rather reassuring way:

"If anyone is aware of his memory problems, he does not have Alzheimer's."

1. I forget the names of families ...

2. I do not remember where I put some things ...

It often happens in people 60 years and older they complain that they lack memory.

"The information is always in the brain, it is the "processor" that is lacking. "

This is "Anosognosia" or temporary forgetfulness.

Half of people 60 and older have some symptoms that are due to age rather than disease.

The most common cases are: - forgetting the name of a person, - going to a room in the house and not remembering why we were going there - a blank memory for a movie title or addr, an actress, - a waste of time searching where we left our glasses or keys ...

After 60 years most people have such a faculty, which indicates that it is not a disease but rather a characteristic due to the passage of years.

Many people are concerned about these oversights hence the importance of the following statement: "Those who are conscious of being forgetful have no serious problem of memory.

"Those who suffer from a memory illness or Alzheimer's, are not aware of what is happening Professor Bruno Dubois, Director of IMMA, reassures the majority of people concerned about their oversights: "The more we complain about memory loss, the less likely we are to suffer from memory sickness.

- Now for a little neurological test: Only use your eyes.

1- Find the C in the table below!

[illegible]

2-you have already found the C,

Then find the 6 in the table below.

[illegible]

3- Now find the N in the table below.

Attention, it's a little more difficult

MM

If you pass these three tests without problem:

So, share this with your over 60 friends, it can reassure them.
